

WEDNESDAY, JUNE 1, 2016

PRE-CONFERENCE WORKSHOP

Basic Surgical Techniques

Zaal 530

In your daily work you are regularly confronted with situations that can be treated with a simple surgical procedure. For example soft tissue injuries, injuries to the fingertips, local bleedings or a ruptured tendon. In this pre-course we offer you the essence of the course 'Basis Operatieve technieken, deel I en II' also known as the BOT-courses.

Time 13.00 – 16.00 hour

Faculty Ozcan Sir, Abel Wei and Marit Rensink

Costs € 200,00

The happy doctor

Zaal 531

A demanding job, a high standard, a young family, a nice partner, pioneering in a young specialism, dealing with shift work.... How do you combine all those things and stay healthy, happy and inspired while living up to your ambitions and dreams?!

In this one-day pre course you learn to:

- Take better care of yourself in order to improve your quality of work and productivity.
• You will learn practical power tools that you can directly translate to your daily work so you will be more balanced, have more energy and have a beter work-life balance

Time 09.00 – 17.30 hour

Faculty Martine Oosterloo

Costs € 130,00

Ultrasound

Zaal 558 en 559

This year the ultrasound section will provide the next level ultrasound precourse. Building on last years thoracic and abdominal ultrasound, more precise: what's the additional value of ultrasound in patients with respiratory and/or circulatory failure? Some experience in ultrasound and familiarity with RUSH, BLU and FEEL protocols is mandatory for this precourse. Sign up this instant, this precourse is sold out faster than SMACCI!

Time 08.30 - 16.30 hour

Faculty Section Ultrasound NSEP, Titus Schönberger

Costs € 130,00

Matters of the Heart: Cardiovascular Emergencies

Zaal 535

The objectives of the cardiovascular pre-conference workshop are to identify critical components in the diagnosis and management of emergencies including: cardiac arrest, congenital cardiac disease, unstable dysrhythmias, syncope, shock, and ventricular assist devices. The lectures will incorporate ECG analysis, clinical decision-making, and up to date therapeutic options for the practicing emergency physician.

Time 09.00 - 17.00 hour

Faculty Maite Huis In't Veld Semhar Tewelde

Costs € 130,00

PSA

Zaal 536

FASE geeft al 5 jaar cursussen over PSA aan SEH-artsen. Tijdens deze cursussen valt het op dat de drempel voor het geven van PSA bij kinderen en de patiënten met uitgebreide co-morbiditeit nog erg hoog is, terwijl de CBO-richtlijn dit wel toe staat. In deze workshop geven wij aan de hand van een aantal te bespreken casuïstieken handvaten hoe om te gaan met beide patiëntengroepen. Deze workshop geeft dan ook een goed beeld wat de SEH-arts kan verwachten van onze vervolg cursus PSA met een uitdaging...

Time 09.00 – 12.00 hour

Faculty Hidde Visser and Alexander Veen

Costs € 130,00

Airwaymanagement

Zaal 536

SEH-artsen worden uitgebreid opgeleid in het ABCDE-denken, m.a.w. het behandelen van een bedreigde of niet vrije luchtweg staat altijd bovenaan. Echter de exposure aan patiënten met airway-problemen is niet heel groot terwijl daar tegen over het aantal mogelijkheden om een luchtweg vrij te maken exponentieel groeit. Dit maakt het daarmee onmogelijk om ervaring te hebben (en daarmee bekwaam te zijn) met alle technieken. Hidde Visser (FASE) heeft zich al jaren verdiept in alle mogelijke devices op het gebied van airwaymanagement; of het nu gaat om de endotracheale intubatie, supraglottische devices of masker en ballon beademing. Schrijf je in voor deze workshop en maak gebruik van deze kennis en ervaring. Een workshop vol Tip's and Tricks in theorie en praktijk.

Time 13.30 – 16.30 hour

Faculty Hidde Visser and Alexander Veen

Costs € 130,00

THURSDAY, JUNE 2, 2016

Table with 4 columns: Time, Topic, Moderator, and Faculty. Rows include Registration, Opening speech, Last year in Tweets, Transforming (emergency) healthcare, Research, Chest pain risk stratification, History taking and risk scores, Good luck is where preparedness meets opportunity, Internist acute geneeskunde & SEH arts, Abstracts and Moderated Posters, Lunch & visit exhibits & poster presentations, Abstracts and Moderated Posters, Abstracts and Moderated Posters, Abstracts and Moderated Posters, Coffee break & visit exhibits, Meet the experts, End of program, and BBQ & Beach party.

* Meet the experts

In het land bestaat een duidelijke behoefte bij SEH-artsen om met elkaar te kunnen sparren en onderling vragen te kunnen stellen en ideeën uit te wisselen. Zo hoeven we niet allemaal opnieuw het wiel uit te vinden. Ons vak is jong en vol in ontwikkeling. Daarom wil het NVSHA bestuur de leden tijdens het congres graag in de gelegenheid stellen om alle vragen die bestaan aan de verschillende secties voor te leggen. Hoe introduceer je spoedechografie op jouw SEH? Hoe overkom je de weerstand tegen PSA op de SEH in jouw ziekenhuis? Bezig met het verbeteren van vroege herkenning en de behandeling van sepsis? Signaleren en omgaan met herkenning van kindermishandeling? Als medisch manager op zoek naar meer handvatten? Bespreek het met de verschillende secties en met elkaar. Ook het NVSHA bestuur geeft de leden graag de gelegenheid om vragen te stellen en te discussiëren over onderwerpen, zoals zij op de katerdag ook heeft gedaan. Heb je goede ideeën voor het bestuur of vragen over de visie, commissies, beleid. Kom langs en praat mee over jouw NVSHA.

SPEAKERS

Nasim Azizi MD FNVSHA Emergency Physician, NSEP Emergency Ultrasound Section Board Member, UMCG, Groningen, The Netherlands
Barbra Backus MD Emergency Medicine Resident, MC Haaglanden, The Hague, The Netherlands
Ingvar Berg MD Emergency Medicine Resident, NSEP Emergency Ultrasound Section Board Member, MC Haaglanden, The Hague, The Netherlands
Rick Body MD Consultant in Emergency Medicine and Honorary Senior Lecturer in Cardiovascular Medicine, Manchester Royal Infirmary, Manchester, United Kingdom
Crispijn van den Brand MD Chairman NVSHA/NSEP, Emergency Physician, MC Haaglanden, The Hague, The Netherlands
Edward Carlton MD ED clinician researcher, North Bristol NHS Trust, Bristol, United Kingdom
Esther Croes Senior research associate, Trimbo Institute, Utrecht, The Netherlands
Yuri van der Does MD Emergency Physician, Erasmus MC, Rotterdam, The Netherlands
Ties Eikendal MD Emergency Physician, Radboudumc, Nijmegen, The Netherlands
Anniek Epema MD Emergency Medicine Resident, St Antonius Hospital, Nieuwegein, The Netherlands
Bernard Fikkers MD Intensivist, Radboudumc, Nijmegen, The Netherlands

Menno Gaakeer MD Emergency Physician, Admiraal de Ruyter Hospital, Goes, The Netherlands
Simone Goossen Epidemiologist & policy advisor Asylum seeker & refugee health, GGD GHOR Nederland, Utrecht, The Netherlands
Michiel Gorzeman MD Emergency Physician, Onze Lieve Vrouwe Gasthuis, Amsterdam, The Netherlands
Patricia Halkes MD Neurologist, Noordwest Ziekenhuisgroep, Alkmaar, The Netherlands
Nina Heijmeskamp MD Emergency Physician, Jeroen Bosch Hospital, Den Bosch, The Netherlands
Prof Gene Hern MD Associate Clinical Professor of Emergency Medicine Vice Chair of Education, Emergency Medicine University of California, USA
Amber Hoek MD Emergency Physician, Erasmus Medical Centre, Rotterdam, The Netherlands
Maite Huis In't Veld MD Clinical Instructor of Emergency Medicine, Cardiovascular Emergencies Fellow University of Maryland Medical Center, Baltimore, USA
Heleen Huisman MD Emergency Physician, Bernhoven Hospital, Uden, The Netherlands
Fabio De Iaco MD Imperia Emergency Department Head of Educational Programs Italian Society of Emergency Medicine (SIMEU), Genua, Italy

Wouter Jetten MD Emergency Physician, Admiraal de Ruyter Hospital, Goes, The Netherlands
Maarten Kok MD Emergency Physician, Spaarne Gasthuis, Haarlem, The Netherlands
Jolanda Kraaij Master of Public Health CRM-instructor, OSG-VvAA, Houten, The Netherlands
Déjan Janevski Pilot-instructor, CRM-instructor, Maastricht, The Netherlands
Mathijs Kreeft MD Emergency Physician, Onze Lieve Vrouwe Gasthuis, Amsterdam, The Netherlands
Maybritt Kuypers MD Emergency Physician, FAWM, Tergooi-Hilversum, The Netherlands
Marrigje Nabuurs-Franssen MD Clinical microbiologist, Canisius-Wilhelmina Hospital, Nijmegen, The Netherlands
Susanne Nijman Researcher, VeiligheidNL, Amsterdam, The Netherlands
Nynke Nutma MD Infectious disease control, GGD Gelderland-Zuid, Nijmegen, The Netherlands
Stanley Oei MD Abdominal Radiologist, 't Lange Land Hospital, Zoetermeer, The Netherlands
Martine Oosterloo MD Emergency Physician, Hospital de Tjongerschans, Heerenveen, The Netherlands

Dafni Papathanasiou MD Emergency Physician, Reinier de Graaf Hospital, Delft, The Netherlands
Harm van de Pas MD Emergency Physician, Elisabeth-TweeSteden Hospital, Tilburg, The Netherlands
Yvonne van de Pas MD Emergency Physician, NSEP Emergency Ultrasound Section Board Member, Maxima Medisch Centrum, Veldhoven, The Netherlands
Jasper Rebel MD Emergency Physician, Onze Lieve Vrouwe Gasthuis, Amsterdam, The Netherlands
Marit Rensink Projectmanager PAO Heyendaal, Radboudumc Health Academy, Nijmegen, The Netherlands
Vincent Rietveld MD Emergency Physician, NSEP Emergency Ultrasound Section Board Member, Westfries Gasthuis, Hoorn, The Netherlands
Douwe Rijpsma MD Emergency Physician, Rijnstate Hospital, Arnhem, The Netherlands
Arthur Rosendaal MD FNVSHA Emergency Physician, NSEP Emergency Ultrasound Section Board, Member, Sint Franciscus Gasthuis, Rotterdam, The Netherlands
Arvid Schigt MD Emergency Medicine Resident, Onze Lieve Vrouwe Gasthuis, Amsterdam, The Netherlands

Titus Schönberger MD
Emergency Physician,
NSEP Emergency Ultrasound Section
Chairman, Jeroen Bosch Hospital,
Den Bosch, The Netherlands

Ineke Schouten MD
Internist,
Onze Lieve Vrouwe Gasthuis, Amsterdam,
The Netherlands

Ozcan Sir MD
Emergency Physician,
Radboudumc, Nijmegen, The Netherlands

Robert Smeenk MD
Bariatric Surgeon
MC Zuiderzee, Lelystad, The Netherlands

Prem Sukul MD
Emergency Physician,
NSEP Emergency Ultrasound
Section Board Member, Groene Hart
Hospital, Gouda, The Netherlands

Gavin Ten Tusscher MD PhD
Paediatrician, Westfriesgasthuis,
Hoor, The Netherlands

Semhar Tewelde MD
Assistant Professor, Department of
Emergency Medicine,
University of Maryland School of Medicine,
Baltimore, USA

Marcel Thijssen MD
Emergency Physician,
Bravis Hospital, Bergen op Zoom,
The Netherlands

Dorien Varin MD
Emergency Physician,
Sint Franciscus Gasthuis, Rotterdam,
The Netherlands

Mischa Veen MD
Emergency Physician,
Westeinde Hospital, Den Haag,
The Netherlands

Alexander Veen MD
Anesthesiologist, Director FASE, Kolham,
The Netherlands

Hidde Visser
Anaesthetic Technician,
Director FASE, Kolham,
The Netherlands

Anne-Marie de Vries MD
Emergency Physician,
Joondalup Health Campus, Joondalup,
Australia

Gos de Vries MD
Director Care,
RAV Brabant Midden-West-Noord,
Den Bosch, The Netherlands

Abel Wei MD
Emergency Physician,
Radboudumc, Nijmegen, The Netherlands

Lotte Wijers PhD
Drug Monitoring & Policy, Trimbos
Institute, Utrecht, The Netherlands

Mieke Willemsen MD
Emergency Physician,
Sint Lucas Andreas Hospital,
Amsterdam, The Netherlands

Arthur van Zanten MD PhD
Internist-intensivist
Hospital Gelderse Vallei, Ede,
The Netherlands

08.00 General meeting NVSHA/NSEP and breakfast
Moderator: Kate Borkent

09.15 **A safe and healthy future for all. Health and healthcare for refugees: experiences from the Netherlands**
Simone Goosen, MARRIGIE Nabuurs-Franssen and Nynke Nutma

10.20 Coffee break & visit exhibits

Research
Zaal 522
Moderator: Jamie Kornet

10.45 **'Fun 'n Tox'**
Femke Gresnigt

Quality/Management
Lamoraalzaal
Moderator: Kate Borkent

10.45 **Life in the fastlane.....the whole truth**
Annemarie de Vries

Educational
Zuiderduinzaal
Moderator: Grietje Jelsma

10.45 **Treatment of Ischemic stroke in the Emergency Department**
Patricia Halkes

11.05 **Encountering bariatric complications in the ED**
Robert Smeenk

11.25 **Who is afraid of the big bad Wolff?**
Mieke Willemsen

11.20 **Early recognition and therapy for sepsis**
Arthur van Zanten

11.20 **The Happy Doctor- 5 powerful tools to love your work and your patients**
Martine Oosterloo

11.45 **Registration of complications in Emergency Medicine in the Netherlands: where do we stand, where do we go?**
Arvid Schigt

11.55 **The road to publication, scientific research at the Emergency Department**
Barbra Backus and Yuri van der Does

11.55 **Drug-related emergencies in The Netherlands**
Lotte Wijers and Esther Croes

12.05 **ENT Bleeding Emergencies**
Gene Hern

12.25 Lunch & visit exhibits & poster presentations

13.30 **Abstracts**

13.30 **MNSHA fellowship**

13.30 **White heroin: lessons learned from a city under siege**
Jasper Rebel

14.00 **Abstracts**

14.00 **MNSHA fellowship**

13.50 **"No more kids screaming! Pediatric procedural sedation in the ED"**
Fabio de Iaco

14.35 Coffee break & visit exhibits

15.00 **Abstracts**

15.00 **Elderly abuse, the current state**
Brigitte van Bon

15.00 **Radiology, focus on acute abdominal pain**
Stanley Oei

15.30 **Living the American Dream- a Dutch perspective on emergency medicine residency training in the United States of America**
Maite Huis in't Veld

15.20 **The other AAA**
Gene Hern

16.30 Closing speech and announcement winner abstracts

If you want to register for a workshop, you can subscribe to the lists which are available at the registration desk. Please note; some of the workshops will be completely booked already.

Expedition medical kits, improvised splinting & patient transport

Are you a hero outside your ED too??
Zaal 531

• Thursday, June 2: 14.00 - 15.30 h

Wouter Jetten, Maybritt Kuypers

These Outdoor Medicine & Advanced Wilderness Life Support instructors will provide a very interactive and practical workshop on what every Emergency

Doctor should know when dealing with emergencies in the outdoor setting from the mountains, to the sea... to your own backyard.

Be prepared to go outside, rain or shine!

• Thursday, June 2: 14.00 - 15.30 h

• Thursday, June 2: 15.30 - 17.00 h

• Friday, June 3: 13.30 - 15.00 h

Douwe Rijpsma, Mischa Veen

Arthur van Zanten

In this course acute respiratory failure in the ED will be addressed. How to interpret blood gases? When to start mechanical ventilation? How to select non-invasive ventilation and when to initiate invasive mechanical ventilation? Based on clinical cases, scenarios are discussed interactively. Also non-invasive mask ventilation will be demonstrated and participants can experience non-invasive ventilation.

• Thursday, June 2: 11.00 - 13.30 h

• Thursday, June 2: 14.15 - 16.45 h

Arthur van Zanten

Force and physical restraint are being used in the emergency care for kids on a regular basis. Despite the fact that no-one wants this, this practice seems hard to eradicate due to time pressure and other boundaries. We will discuss this problem and propose ways to minimise it. Further, we will cover the ins and outs of the most popular PSA-drug for kids: Ketamine. Is it really an "on-off" drug or is there more to it?

• Thursday, June 2: 14.00 - 15.30 h

• Thursday, June 2: 15.30 - 17.00 h

Jolanda Kraaij, Déjan Janevski

Crew Resource Management (CRM) was introduced in the aviation industry during a NASA workshop in 1979, designed as a training program to improve air travel safety and reduce the increasing number of fatal accidents attributable to human error. Studies had found that the primary cause of the majority of aviation accidents occurring at that time were due to human error. The leading causes of which were failures of interpersonal communication, leadership and decision-making within the high-risk cockpit.

The prestigious 'Institute of Medicine' recommended in the article 'To err is human' to formalize the Crew Resource Management program in training, coaching and integration in healthcare. Today, organizations around the world have begun to adopt Crew Resource Management in the healthcare industry.

As a training methodology, Crew Resource Management in healthcare is concerned not so much with the technical knowledge and skills required to operate equipment or perform specific operations, but rather with the cognitive and interpersonal skills needed to effectively manage a team-based, high-risk activity. In this context, cognitive skills are defined as the mental processes used for gaining and maintaining situational awareness, for solving problems and making decisions. Interpersonal skills are regarded as communications and a range of behavioral activities associated with teamwork.
