

PRE-CONFERENCE WORKSHOP

Teaching course (English spoken)

Zaal 535

- Keynote: Am I Any Good? The Feedback Mindset
- Social media and MedEd
- Why are innovations in curriculum design important/needed?
- Designing a great curriculum
- Better bedside teaching workshop
- Stress inoculation -the concept and in-situ sim
- Make it stick: evidence based practices for better teaching and learning
- Discover how to use cutting-edge learning principles and theories to most effectively learn any new topic.
- Remediation workshop
- Faculty Q&A

Time 09.00 - 17.00 hour
Faculty Jeff Riddell, Sandra Viggers and George Willis
Costs € 250,-

Geriatric Emergency Medicine

Zaal 531 and 532

Het aantal oudere patiënten op de SEH is stijgende. Veel van deze oudere patiënten hebben complexe comorbiditeiten, zijn kwetsbaar en hebben een verhoogd risico op slechte uitkomsten. Werken met kwetsbare oudere patiënten kan lastig zijn in een omgeving waar tijdsdruk en onrust op de loer liggen en het wordt steeds belangrijker om goed met deze groep patiënten om te kunnen gaan.

Deze praktische precourse heeft het doel om kennis en kunde over 'Geriatric Emergency

Medicine' van SEH-artsen te verbeteren. De precourse is een halve dag en bestaat na een korte introductie uit werkgroepen met casus en scenario's. De precourse wordt gegeven door zowel SEH-artsen als internisten-ouderengeneeskunde en heeft als doel tips en tricks te geven die direct kunnen worden gebruikt in de dagelijkse praktijk. Onderwerpen die aan bod komen zijn: kwetsbaarheid, trauma, sepsis, pijnbestrijding bij kwetsbare ouderen, polyfarmacie, cognitieve stoornissen en zorg rondom het eind van het leven.

De deelnemers krijgen aan het eind van de precourse een digitaal informatiepakket met daarin interessante achtergrondartikelen. Deze precourse is eerder gegeven op EUSEM in Glasgow en was daar een groot succes, deze wordt dus nu beschikbaar gesteld in Nederland.

Time 13.00 - 17.00 hour
Faculty Jacinta Lucke, Bas de Groot, Simon Mooijaart, Oscar de Vries, Merel van Loon, Marije van der Velde and Laura Blomaard
Costs € 150,-

Spoezorg MBA in half-a-day

Zaal 530

De spoedzorg is voortdurend onderhevig aan verandering en staat onder grote druk. Dat weten we allemaal. Toch gebeuren er regelmatig dingen zonder dat je precies begrijpt waarom.

Tijdens deze dag praten we over niet medische zaken als leiderschap en geld waar iedereen in de spoedzorg mee te maken heeft. Of je nu ervaren SEH arts bent of A(N)IOS, of je nu teamleider bent of vakgroepvoorzitter, of je nu divisiehoofd bent of opleider.

We gaan onder andere in op het faillissement van het MC Slotervaart en wat dit betekent, we horen hoe andere professionals kijken naar de SEH arts en tenslotte denken we na en discussiëren we over leiderschap.

Alles wat handig is om te weten, maar dan in één dag. Een dag die onmisbaar is voor iedereen die werkzaam is in de spoedzorg.

Time 09.30 - 17.30 hour
Faculty Heleen Huisman, Xander Koolman, Jocelyn Berdowski, Michiel Gorzeman, Maurice van den Bosch, Suzanne Kruijzinga and Menno de Bree
Costs € 200,-

POCUS Workshops and Dutch SONOGAMES 2019

Zaal 558 and 559

The ultrasound section invites you to tailored POCUS workshops followed by the first version of SONOGAMES on DutchEM!

The morning program will prepare you with POCUS workshops delivered by leading national and global POCUS educators. In the afternoon we will battle in groups of 2 during the SONOGAMES! This is an ultrasound competition where you learn while competing with other participants. It is possible to pair together with a colleague to take the first prize home to your hospital!

To prepare you for the educational competition in the afternoon, the morning will focus on (advanced) cardiac, lung and abdominal ultrasound with an emphasis on the clinical implementation of POCUS in the

patient with dyspnea, shock and cardiac arrest. We will divide the groups by level of experience to be able to provide basic to advanced teaching. In the afternoon you will be teamed up with a workshop participant to get ready to battle in the SONOGAMES.

Some experience in ultrasound and familiarity with RUSH, BLU and FEEL protocols is recommended for this precourse. Sign up now to be part of this first innovative precourse with global leaders in POCUS!

Time 09.00 - 17.00 hour
Faculty Course director: Ingvar Berg
 International faculty: Rachel Liu and Creagh Boulger
 National faculty: Prem Sukul, Joram Stollman, Diane Peijs-Kuiper, Petra Tuijzer, Paul van Overbeeke and Titus Schönberger
Costs € 150,-

Code GRAY-What to do with the agitated ED patient

Zaal 533

In this precourse you will learn everything there is to know about the agitated ED patient. How to deescalate the situation, what sedatives are best to choose, what is your differential diagnosis and how about the legal aspects. We will discuss and practise with a focus on the toxicology patient.

Time 13.00 - 17.00 hour
Faculty Femke Gresnigt, Maro Sandel, Wouter Raven, Carianne Deelstra and Trudy van Dijken
Costs € 150,-

WORKSHOPS

THURSDAY, JUNE 6, 2019

Ultrasound guided procedures for the emergency physician " more success, less complications"
Zaal 558 and 559

The use of point-of-care ultrasound by Emergency Physicians in guiding invasive procedures is growing rapidly. It is essential to work safely, while adapting to the new possibilities that ultrasound guided procedures offer. During this workshop you will learn to perform ultrasound guided peripheral and central venous access, and upper & lower extremity nerve blocks.

Part 1 Ultrasound guided vascular access
Peripheral intravenous line placement
Central venous line placement
Part 2 Ultrasound guided peripheral nerve blocks

Upper extremity: medial, ulnar and radial nerve
Lower extremity: femoral, tibial and ischiatic nerve

Time 10:30 - 12:00 hour
and 13:00 - 14:30 hour
Faculty Creagh Boulger, Rachel Liu, Andrew Liteplo, Ingvar Berg, Prem Sukul, Joram Stollman, Diane Peijs-Kuiper, Petra Buizert, Yvonne Admiraal-van de Pas, Gert-Jan Mauritz, Paul van Overbeeke, Nasim Azizi and Vincent Rietveld

Cerebrale CT: kopzorgen tussen eb en vloed?
Zaal 530

The cases range from lack of flow (ischemia – how to detect and when to reperfuse or not to reperfuse) to flooding of the brain (hemorrhages and hyperperfusion in CT perfusion).

Linda (A.A.) Jacobi-Postma is a neuro- and headneck radiologist, working at the university Hospital of Maastricht. Next to her clinical tasks she is appointed to the school of Mental Health and Neuroscience and she is program director of the Radiology and Nuclear Medicine residency. She is education minded and chair of the dutch educational 'sandwichcursus' committee. She has a broad view on neuro- and headneck radiology and imaging. Her special interests are neuro-oncology, stroke, skull base and vertigo. She will give workshops on acute neurology, especially focused on CT scans of the brain. This ranges from easy to challenging scans. The audience is stimulated to participate actively.

Time 10:30 - 12:00 hour
and 13:00 - 14:30 hour
Faculty Linda Jacobi-Postma

FRIDAY, JUNE 7, 2019

RSI in the ED
Zaal 535

In this interactive workshop you will be setting yourself up for succes. You will be working on microskills in airway management and learn about sensible drug choices. You will be able to predict a difficult airway and alter your strategy based on your assessment. Finally, you will work on your leadership skills to make it all happen.

Time 10:30 - 12:00 hour
and 13:00 - 14:30 hour
Faculty Femke Geijssels, Jasper Rebel, Floor Frenkel, Ninke Barneveld Birkhuysen and Esmée Smits

De nieuwe meldcode met het afwegingskader in de praktijk
Zaal 530

What is your experience with the new Dutch "Meldcode kindermishandeling en huiselijk geweld"? A new "afwegingskader" has been added to step 5, do you know how to use it? In this workshop we will talk about what has been changed, and how that affects our daily practice. Using actual cases we will discuss the best way to handle it. Off course there will be enough opportunity for you to ask your questions and discuss the cases you already encountered.

Time 10:30 - 12:00 hour
and 13:00 - 14:30 hour
Faculty Dayenne Caris and Judith Hoefnagels
